about

For over 10 years, the TeenTechSF Civic Hackathon has connected hackers from San Francisco and the Bay Area, empowering the next generation of civic innovators. As a 501(c)(3) nonprofit, we foster innovation, civic engagement, and social responsibility among teens. We've partnered with dozens of tech companies and nonprofits across the Bay, such as Google, Makey-Makey, Mission Bit, and Sphero.

why us?

With over 150 curious and ambitious students from San Francisco and the SF Bay Area, the TTSF Civic Hackathon is the perfect target audience for your brand. All sponsors are included in our event recaps, branded items (T-shirts) and our website. Your company can connect through sending mentors, on-site demos, and outside-event promotion. Feel free to contact sponsor@civichacksf.org to discuss partnership opportunities.
